PODCAST

PCA MISSION STATEMENT

The Painting Contractors Association serves the coating and wall covering industry with standards, education, training, advocacy, and best practices essential to member success.

SPEAKER BIO

Nick has traveled the US hosting Master Classes for business owners and Craftspeople. He has created one of the most in-depth educational pieces in the areas of estimating, production management, hiring, budgeting, marketing, financial systems, processes, SOP's and leadership. He has also compiled a wealth of knowledge about coating science - which he uses to create fail-proof, simple finishing systems for his own business as well as others across the country.

Nick has been a craftsman for more than 29 years. His company has been awarded more than 15 National awards for craftsmanship over the last 5 years, including massive restorations of Victorian mansions. He has created a rigorous Apprenticeship program where he finds, trains, inspires and mentors young people in his craft. He is also a family member at This Old House, where he contributes content about his craft.
